Kiam Cabinet

PRODUCT NAME

Kiam Cabinet

DESIGNER

Jean-Marie Massaud

YEAR OF DESIGN

2022

Kiam is a collection of cabinets designed by Jean-Marie Massaud. The cabinets owe their special character to three unique design elements: the architectural support structures underneath the cabinets created by interlocking the cabinet's leg endings with horizontal support beams, the beauty of proportions characteristic of Massaud and the handcarved pattern on the cabinet doors that gives them a unique sense of depth, sophistication, and tactility. The carvings give the appearance that the cabinet doors were composed of 20cm thick layered stone, but they are entirely made in solid wood, like the rest of the cabinet.

Behind the thick hand-carved doors, the tall bar cabinet hides an intricate interior designed to store and serve wine and drinks, dinnerware, and other paraphernalia to meet the needs of "joie de vivre." The three-door cabinet can serve a variety of purposes, from a dining and living area storage piece, a hallway statement piece, and a bedroom dresser.

Customized options of interior design will be offered to equip the cabinet for intended use.

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak's weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.

** 2D models, 3D models and product images can be found on the product page of ZANAT website.

WOOD AND FINISHES

Maple, black
stain, matte
polyurethane
lacquer

Cherry Zanat
Pigment

Walnut, oil

*** Please note that colors are only indicative. In particular, color variations are possible in wood that is not stained.
