Koam Sideboard

PRODUCT NAME
Koam Sideboard

DESIGNER

YEAR OF DESIGN
2019

Koam is a low sideboard made entirely in solid wood resting on a minimalist base made of expertly welded steel plates with no visible welding marks. Strong aesthetic appeal of this minimalist piece is to be found in perfect proportions and its charismatic “burnt wood” carving pattern that entirely covers the drawer fronts, as well as by the interplay between the elegant wooden body and the metal base. Koam Sideboard consists of two larger drawers to the right and two smaller drawers sitting on top of each other on the left. The orientation of the carving pattern differs on the small and large drawers, which visually breaks the piece in two segments.

CUSTOMIZATION OPTIONS

Dimensions can be customized. Maximum length is 300 cm. Custom finishes may be possible upon request.

ENVIRONMENT

Indoor. Outdoor is possible if protected from sunlight and precipitation.

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak’s weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.

** 2D models, 3D models and product images can be found on the product page of ZANAT website.
