Koba Coffee Table (square)

PRODUCT NAME

Koba Coffee Table (square)

DESIGNER

Jean-Marie Massaud

YEAR OF DESIGN

2019

Koba coffee table (square) combines sleekness of glass with warmth and tactility of solid wood into a refined sculptural object. Koba features a central cubical table base, made in solid wood. The base penetrates through a smoked glass tabletop, framed around the edges, to create the elevated central part on top. A special highlight are the intricate carvings on top of this central part, which create a texture reminiscent of burnt wood. The base of the table can also be used as a two-level storage compartment. The upper compartment is accessed by simply lifting the hand-carved top, while the lower compartment is a “secret” space, which is easily accessible with instructions provided by Zanat.

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak's weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.
