Mati Table

PRODUCT NAME

Mati Table

DESIGNER

Sebastian Herkner

YEAR OF DESIGN

2020

Mati table is a statement of grace and simplicity. Much of the table's character stems from cleverly considered joints between the legs, frame and the tabletop, which create beautiful details underneath the tabletop while giving an appearance of levitating tabletop lightness. Furthermore, the rounded edges on the tabletop render it inviting and calm. The table's character is not complete without its legs, rounded on the inside, but cut flat and hand-carved on the outside. The hand-carved texture was inspired by the cellular structure of wood, which is not only an attractive visual detail, but a reminder that wood once was a living organism. Table legs are designed with the same features as those of Mati chairs, creating a perfect match. Mati table is made entirely in solid European hardwoods, and it comes in a variety of woods and finishes as well as several standard lengths. Customized lengths are also a possibility.

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak's weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.
