

Ombra Table

PRODUCT NAME

Ombra Table

DESIGNER

Jasna Mujkić

YEAR OF DESIGN

2010

Ombra Table is a unique piece of furniture constructed by joining together tiny “Penrose Prototiles” in solid walnut. These specific prototiles are named after Sir. Roger Penrose, a famous British mathematician who first investigated them in 1970s. The prototiles have remarkable geometric and visual properties. For one, they are aperiodic, meaning that a shifted copy of the original set of prototiles will never look the same: the pattern does not repeat! The designer brilliantly joined the prototiles in the tabletop in a way to create an abstract tree shade. Ombra Table is made with environment in mind by utilizing small pieces of wood likely to end up as production waste.

CUSTOMIZATION OPTIONS

Dimensions can be customized.
Custom finishes may be possible upon request.

DESIGN AWARDS

— Interior Innovation Award 2012 - Winner

ENVIRONMENT

Indoor. Outdoor is possible if protected from sunlight and precipitation.

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak's weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.

** 2D models, 3D models and product images can be found on the product page of ZANAT website.
