

Sana Bar Stool

PRODUCT NAME

Sana Bar Stool

DESIGNER

Monica Förster

YEAR OF DESIGN

2019

Sana barstool is a sibling of the award-winning Sana dining chair. Like its sister Sana dining chair, the barstool follows a feminine, elegant design and lightness despite entirely made in massive wood. The most special feature of the chair is its finely sculpted and multidimensionally curved backrest that instils a warm hug effect and provides additional seating comfort. The entire outer side of the chair's backrest is hand-carved with carving patterns which were designed to emphasize the curved shape of the backrest and to give Sana the character of a modern handcrafted object.

CUSTOMIZATION OPTIONS

Additional customized finishes may be available upon request for larger contract orders.

Height customization between counter stool and barstool levels may be available for larger contract orders, with a minimum height of H88cm and a maximum height of H98 cm.

ENVIRONMENT

Indoor. Outdoor is possible if protected from sunlight and precipitation.

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak's weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.

** 2D models, 3D models and product images can be found on the product page of ZANAT website.

*** Height customization between counter stool and barstool levels may be available for larger contract orders.
