Sky standing mirrors are modernist art sculptures hand-carved in solid wood. Although the uniqueness and refinement of Sky mirrors is obvious at first sight, there is something mystical and fairytale about them. Contrary to most mirrors, they are equally beautiful from all angles, which renders them a natural centerpiece object for a multitude of different settings and environments, placed either as singular objects or in groups of two or more, which also turns them into astonishing room dividers. These large self-standing mirrors come in two different semioval sizes and two round sizes and can be ordered in walnut or maple with different stains and finishes.

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak's weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.
