Tara Shelving System

PRODUCT NAME

Tara Shelving System

DESIGNER

Monica Förster

YEAR OF DESIGN

2015

2025 - With cabinet

Tara shelves can be used as single units or as a family for a range of interior design wants. The shelves are equally beautiful and functional when positioned against a wall or as room-dividers. In addition to creating a versatile piece, Tara demonstrates the exquisite craftsmanship of Zanat in the fine joinery that utilizes our unique hand-carving techniques.

Tara was selected by the German Design Council for the Interior Innovation Award 2015.

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak's weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.
