Zanat's popular Tattoo stool designed by Wingårdhs is getting bigger siblings in elegant Tattoo barstools, a medium high one (60cm) and a high one (75cm). Like their smaller cousins, the Tattoo barstools come in carved and plain versions. The plain ones have slimmer arch-like leg endings at the top of the stool. With both types, the legs penetrate the stool tops, leaving perfectly joined and distinctive cross-like markings. The first two carved versions of the barstools carry a peacock and pheasant tattoos. The stools are stackable and some versions come with a hole on top for easier handling.

ENVIRONMENT

Indoor. Outdoor is possible if protected from sunlight and precipitation.

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak's weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.

** 2D models, 3D models and product images can be found on the product page of ZANAT website.

*** Tattoo bar stool plain comes with a steel ring in black color, unless otherwise specified.
