Touch Bench with Backrest

PRODUCT NAME
Touch Bench with Backrest

DESIGNER

YEAR OF DESIGN
2016

To touch is both to feel physically and sense emotionally. Touch is a collection of universal benches and other objects. Their special quality lies in the handcarved surfaces that engage our instinctive impulse to feel something and reflect our hunger for more tactile surroundings in the digital age. The carvings on the benches take two man-days to execute and – since the craftsmen carve the pieces at random, without drawings – each bench is unique as no two carved surfaces will ever look the same. Touch Bench is available in wood or cast bronze legs. African or Western because it speaks directly to our deeply rooted sense of home and belonging.

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak's weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.

** 2D models, 3D models and product images can be found on the product page of ZANAT website.

*** Touch Bench with backrest comes with wooden legs only.
