2017 - Touch Stool Pill

Touch stools (side tables) are part of the Touch Collection designed by Studioilse for Zanat. The stools come in “Pill” and “Half Moon” versions. The special quality of all Touch products lies in the hand-carved surfaces that engage our instinctive impulse to feel something and reflect our hunger for more tactile surroundings in the digital age. The carvings on stool tops make them uniquely tactile and since the craftsmen carve the pieces at random, without drawings – each piece is unique as no two carved surfaces will ever look the same. The stools can be used in a multitude of different settings: casual seating, around a dining table, as side tables...

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak's weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.

** 2D models, 3D models and product images can be found on the product page of ZANAT website.
