Unna Chair

PRODUCT NAME

Unna Chair

DESIGNER

Monica Förster

YEAR OF DESIGN

2015

The designer's aim was a stackable and sturdy chair with strikingly soft, minimalist, yet humanistic expression sculpted entirely in solid wood.

Unna, as noted by the jury of the Swedish Golden Chair Award, is an extraordinarily comfortable wooden chair, featuring a finely curved seat and backrest, made from solid wood sections. The chair can be individualized by applying Zanat's exquisite carving techniques.

The designer has come up with a modernist interpretation of traditional Konjic woodcarving, preserving, however, the original technique and tools. The carvings on black or wenge stained chairs can also be stained or unstained to reveal the light wood color. For better comfort, an optional magnetically attached cushion in leather can be added. Unna Chair is the winner of the Interior Innovation Award 2015 presented by the German Design Council and the Golden Chair Award by the Swedish Architects Association.

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak's weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.
