# Kiam Table

## PRODUCT NAME

Kiam Table

## DESIGNER

Jean-Marie Massaud

## YEAR OF DESIGN

2024 - Kiam Table

2025 - Kiam Table (square)

Kiam Dining Table speaks sophistication, elegance, exceptional craftsmanship and innovative functional elements. The table is a part of the Kiam collection of products which owe their special character to three unique design elements: the architectural support structures underneath created by interlocking the leg endings with horizontal support beams, the beauty of proportions characteristic of Massaud's designs and finally the hand-carved pattern on the tabletop that not only adds a beautiful and tactile element, but also performs a function. The hand-carved blocks in the middle at the same time serve as covers for a storage compartment that is conveniently placed underneath the table top and can be used as trays to pass things around the table. The Kiam tables will come in several different sizes with different lengths and widths. The tables are made in maple with black stain as well as in walnut and oak. They are suitable for dining, but also meeting environments. The storage compartment is there to place tableware and other things one needs to conveniently store in a place that is invisible and does not take any additional space in a home. Cabling can also be done through the storage compartment to make it useful for work environments.

NOT PREASSEMBLED

CUSTOMIZATION OPTIONS

Dimensions of this table can be customized. Maximum width 120 cm, maximum length 280 cm. Custom finishes may be possible upon request.

STORAGE COMPARTMENT

Kiam Table features three built-in storage compartments hidden beneath the hand-carved lids in the center of the tabletop.

ENVIRONMENT

Indoor. Outdoor is possible if protected from sunlight and precipitation.

\* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak’s weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.

\*\* 2D models, 3D models and product images can be found on the product page of ZANAT website.

WOOD AND FINISHES

Maple, black stain, matte polyurethane lacquer

Maple, wenge stain, matte polyurethane lacquer

Oak, oil

Oak, white oil

Walnut, oil

\*\*\* Please note that colors are only indicative. In particular, color variations are possible in wood that is not stained.
