Drvo Table

PRODUCT NAME

Drvo Table

DESIGNER

Naoto Fukasawa

YEAR OF DESIGN

2025

Drvo Table, a brilliant design by Naoto Fukasawa for Zanat, exudes poetic simplicity and understated elegance, inspired by the image of a tree's base emerging from the ground. This round table, with its serene form, seamlessly blends into diverse surroundings, evoking the quiet strength of nature. The design concept is rooted in the idea of carving a solid piece of wood until the table's shape is revealed—like uncovering a hidden form within the material. The exquisite hand-carved pattern, skillfully executed by Zanat's master woodcarvers, subtly echoes the texture of tree bark, adding depth and character.

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak's weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.
