Touch Cabinet (tall) is the newest addition to Zanat's popular Touch collection by Studioilse. Known for its hand-carved surfaces, it appeals to our instinctive need for tactile experiences in a digital world. The "Touch" pattern, created by Studioilse and Zanat woodcarvers in 2016, has gained global popularity and imitation. This versatile cabinet fits various settings, from hallways to bedrooms, with two vertical compartments each containing one fixed and four removable shelves. Made entirely of solid wood, it is available in walnut, oak, and maple.

\* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak's weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.
