CUSTOMIZATION OPTIONS

Dimensions cannot be customized. Custom finishes may be possible upon request.

* Product weights are approximate and vary based on wood species. Different wood densities affect overall weight, even within the same species. If only one weight is shown, it represents the average for maple, ash, and walnut—maple and walnut are similar, while ash is 4% heavier. Oak's weight can be estimated by adding 11% to the net weight. These variations may impact handling, transport, and usage.

** 2D models, 3D models and product images can be found on the product page of ZANAT website.

*** Please note that colors are only indicative. In particular, color variations are possible in wood that is not stained.
