

## THE MASSACHUSETTS HOME THAT PROVES WARM MINIMALISM REALLY WORKS

## **A GLOBAL COLLECTION, A MODERNIST SENSIBILITY**

The sourcing process was deliberate and intuitive in equal measure. The studio spent significant time researching pieces that felt specific to this house — allowing the interior to evolve through selection rather than prescription. The resulting collection spans Brazilian, American, Japanese, Italian, Indian, Scottish, and Scandinavian works, and takes in names including Espasso, B&B Italia, Carl Hansen, Ligne Roset, Zanat, Artek, and Gubi, alongside custom pieces by Gideon Rettich and lighting by Roll & Hill, Lambert & Fils, and LZF.
